Revenue Multiyear Data File

Dataset Summary

Agency: Department of Treasury
Category: Office of Management and Budget
Date Released: January 27, 2012
Date Updated: January 25, 2012
Time Period: Accounting Fiscal Year 2005 through 2011
Frequency: Annually

Description: The data file reflects revenue data for previous closed fiscal years as recorded per accounting month and cumulatively as a fiscal year-to-date total. For ease of reporting and to facilitate understanding of the data, the revenue is categorized by fund, type, department/agency, source, revenue description and organization (see below for complete list of actual column names and their definition).

Note that the 12 accounting months begin in July and run sequentially through the 12th period which stays open for both calendar months June and July of the following year. A 13th period closing/adjustment period, which is not associated with any particular calendar month, remains open for a period of time for final entries in preparation of the State's CAFR reporting.
